~g~ I am going to resolutely ignore the appalling visuals your post suggests, and concentrate on the veryvery pretty icon...

Oh, it wasn't even remotely appalling. It was, however, intensely humorous.

...I can do appalled amusement. Or *bemusement*, whichever fits.

Hello. Cowboys are much bigger than coyotes. I have never herniated myself playing Twister.

 [trollcatz](#)

[February 26 2008, 01:51:32 UTC](#) [COLLAPSE](#)

And FLOPPY Cowboys are even heavier! *g*

(D'you think he really *did* play a dead body in a high school production of *Arsenic and Old Lace*? Or did he learn that poker face from Duke?)

Well, I didn't catch him breathing.

Here's the deal: I will carry YOU out of a burning building. Twice. And go back for Duke on the third trip. But the Cowboy is on his own. 0.0

If there was a burning building involved, he'd probably be a *lot* more cooperative. *g*

I am a mean teasing person. You did a good job, Platypus. I certify you to do a pack strap carry of anybody under 160 pounds, and your two-person carries are awesome.

I can lift my own body weight in unconscious people! Woo!

You should have taken my advice and used his belt to strap his ankles to his thighs.

'cept the Cowboy looked more strawberry-pink. Didn't know he could turn that color!

Watching him go that color gave me a new appreciation for why you're so mean to me all the time.

OTOH, I think he was perfectly justified in demonstrating the dual fireman's carry on you and Lau afterwards.

Cowboy: "You're out of character. Unconscious people don't shriek like that."

Duke: (Helpfully) "Or squirm quite that much. But don't stop on my account."

Wonder Woman: "Todd, as god is my witness, you are so totally dead and dismembered if ever puts me down."

Cowboy: (hefts, extra-bouncily) "Well, it's not like you weigh more than a cat. I guess you can stay there indefinitely."

Wonder Woman: "I will pummel your back with my tiny little fists in five, four...."

I'm a strapping lass, thank you! (Wonder Woman's on the petite side.)

The Cowboy is *just that big*.

(And it wasn't a very good fireman's carry. More a sling-over-the-shoulder, and not ergonomic.)

He's such a freakin' mountain he usually dispenses with the ergonomics.

Which is why I keep on him about it. It's the big guys who get the hubris hernias.

"Hubris hernia" ftw.

You think if we started referring to him as Man-Mountain Gilbert he'd kill us?

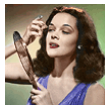

And would it be enough fun to be worth getting kilt over?

I could offer to teach him the Dignified Silence in response.

Not until we'd gotten a little mileage on it, though.

Sorry. Ahem. Sorry. Better now. Disregard previous hysterics.
